## Practice Overview

---

Georgina Petrova advises and acts (led and unled) in a broad spectrum of complex, high-value commercial disputes in litigation and arbitration. In litigation, most of her work is in the English courts, but she also acts in other common law-based jurisdictions in the Caribbean and the Middle East. Her arbitration practice encompasses commercial and investor-state disputes under all major institutional rules (including LCIA, ICC, SCC, SIAC, HKIAC and ICSID) as well as *ad hoc*, and arbitration-related court proceedings in England and abroad.

Georgina has represented states, multinational companies and high net-worth individuals in disputes involving a wide range of industries and sectors, including banking and finance, energy and natural resources, the pharmaceutical industry, tech and telecoms, and relating to parties and business interests located all over the world, including Africa, Europe, the Middle East, Asia, Russia and the CIS. Her work often involves parallel proceedings and advice on global strategy as well as raising conflict of laws or jurisdictional issues and requiring foreign law evidence. Alongside general commercial claims, Georgina has a substantial civil fraud practice, regularly acting for claimants and defendants in conspiracy and other economic tort claims as well as obtaining and resisting freezing orders and other interim relief.

Georgina's current and recent instructions include: acting for the Beko Defendants in the ongoing multi-party Grenfell Tower Litigation arising out of the catastrophic fire in 2017 (led by Helen Davies KC and Edward Harrison KC); acting for the former shareholders of a British drug developer in a US\$50m+ contractual claim against a major pharmaceutical company in the Patents Court (led by Adrian Speck KC in the three-week trial, Georgina undertook the interlocutory and pre-trial advocacy); acting for insurance giant Willis Towers Watson in a joint venture dispute listed for trial in the DIFC Courts in 2026, involving contract and conspiracy claims under UAE law (led by Roger Masefield KC); and acting for Thurrock Borough Council in its claims arising out of the complex alleged fraud by Liam Kavanagh, which left the Council insolvent and was the subject of a BBC

Panorama documentary as well as being widely reported in the national press (led by Craig Morrison KC). Further examples of Georgina's recent cases are provided under the tabs below.

Georgina is ranked as a leading junior in the fields of commercial dispute resolution, civil fraud and international arbitration in the legal directories, which include the following commentary: *"Georgina is tactically savvy and unbelievably quick to take in detail."* *"Georgina has an encyclopedic knowledge of matters relating to public international law and a wonderful ability to convert complex concepts clearly in her writing."* *"Extremely responsive and personable; organised and communicative; very sharp and able to distil the key points; commercially-minded; and overall a pleasure to work with."* *"Georgina's analysis is first rate and she displays excellent judgement. Beko Poland Manufacturing and others): acting for Beko, the white goods and electronics manufacturer, in this high-profile multi-party High Court litigation arising out of the catastrophic fire in 2017 (led by Helen David KC and Edward Harrison KC).
